Global warming potential within the product life cycle [GWP; kg CO2-eq.]

standards / certificates

Klöber has been committed to the principles of sustainable corporate governance of the United Nations Global Compact and its principles in terms of human rights, labour, the environment and anti-corruption since 2017.

Features

- Backrest with 2-ply mesh (DLX)
- Arm supports with PP finish
- Tubular steel frame Ø 25 mm, bright chromed
- Ultra glides, for soft, rough floorings
- Fabric: Urban (Camira)
- Suitable for up to 125 kg body weight
- 5 years warranty (see terms and conditions of sale and delivery)

Production

- Covers not glued
- CFC-free PU foam cushion
- Galvanisation with chrome III
- Use of certified upholstery fabrics in accordance with OEKO-TEX Standard 100
- Produced using 100% green electricity
- Produced in accordance with DIN ISO 14001 Environmental management
- Produced in accordance with DIN EN 45001 Occupational safety

Recycled content / recyclable materials

	kg	%
Recycled content	2,30	20,86
	kg	%
Recycling of materials	9,38	85,04
Energy recovery	1,65	14,96

Recyclability 99%

The recycled materials and the recyclability of materials are determined based on data from experts and specialist organisations. When determining recycling values, Klöber uses conservative practice-oriented values and not merely the theoretically possible values. The figures shown include our products' packaging. This fact sheet is checked regularly and may be changed without giving prior notice. The most recent version can be downloaded from our homepage at any time.

Statement

We develop products which bring together first-class quality, design, ergonomics, durability as well as ecological and economic standards in a balanced and unmistakable way – perfectly in line with our customers' needs. To this end, we set high standards for each life phase of the product.

We purchase around two thirds of the steel, aluminium and wood which we require to produce our products in Germany and almost all the rest from Europe, this helps us to avoid long delivery routes whilst, at the same time, boosting the local economy. We use materials which have been tested and assessed with respect to potentially adverse effects on human health and the environment.

REACH Regulation

This product contains no substances as per the candidate list of the REACH Regulation, Annex XIV, above the limit value of 0.1 % mass percent.

Electrical appliance law

WEEE-Reg.-Nr. DE 42358248 Electrical components were registered by Klöber or our suppliers as per the Electrical appliance law.

Materials

Composition of the materials used for the model:

cie58, 3510, 3253, URBAN

Reference quantity: 1 unit

Metals

	kg	%
Steel	8,500	77,77
Aluminium	0,204	1,87

Plastics

	kg	%
Polyester fabric	1,146	10,48
PUR foam	0,438	4,01
Polyamide 6.6 (PA66)	0,290	2,65
Polypropylene (PP)	0,285	2,61
NBR	0,022	0,20

Further materials

	kg	%
Fibreglass	0,040	0,37
Adhesives, lacquer and lubricants	0,005	0,05

Total weight (without packaging) 10,94kg
