## ENVIRONMENTAL PRODUCT INFORMATION

lim98, P990, 3962, D062, 3534, 3218, 3103, 3301, 3817, 3711, URBAN

### Global warming potential within the product life cycle [GWP; kg CO2-eq.]

### Features

- Backrest shell PP white grey
- Synchronised mechanism with automatic adjustment of backrest counter-pressure
- Arm supports white grey
- Backrest upholstery with 10 mm PU moulded foam cushion
- Seat upholstery with 25 mm PU moulded foam cushion
- PA base
- Hard castors, Ø 65mm, for carpets
- Fabric: Urban (Camira)
- Suitable for up to 130 kg body weight
- 5 years warranty (see terms and conditions of sale and delivery)

### Production

- Covers not glued
- CFC-free PU foam cushion
- Use of certified upholstery fabrics in accordance with OEKO-TEX Standard 100
- Produced using 100% green electricity
- Produced in accordance with DIN ISO 14001 Environmental management
- Produced in accordance with DIN EN 45001 Occupational safety

### Recycled content / recyclable materials

	kg	%
Recycled content	2,21	16,59
	kg	%
Energy recovery	2,88	21,59
Recycling of materials	10,45	78,41

**Recyclability 99%**

The recycled materials and the recyclability of materials are determined based on data from experts and specialist organisations. When determining recycling values, Klöber uses conservative practice-oriented values and not merely the theoretically possible values. The figures shown include our products' packaging. This fact sheet is checked regularly and may be changed without giving prior notice. The most recent version can be downloaded from our homepage at any time.

### standards / certificates

Klöber has been committed to the principles of sustainable corporate governance of the United Nations Global Compact and its principles in terms of human rights, labour, the environment and anti-corruption since 2017.

The life cycle assessment was prepared in accordance with DIN EN 15804.

## ENVIRONMENTAL PRODUCT INFORMATION

KLÖBER

### Statement

We develop products which bring together first-class quality, design, ergonomics, durability as well as ecological and economic standards in a balanced and unmistakable way – perfectly in line with our customers' needs. To this end, we set high standards for each life phase of the product.

We purchase around two thirds of the steel, aluminium and wood which we require to produce our products in Germany and almost all the rest from Europe, this helps us to avoid long delivery routes whilst, at the same time, boosting the local economy. We use materials which have been tested and assessed with respect to potentially adverse effects on human health and the environment.

### REACH Regulation

This product contains no substances as per the candidate list of the REACH Regulation, Annex XIV, above the limit value of 0.1 % mass percent.

### Electrical appliance law

WEEE-Reg.-Nr. DE 42358248 Electrical components were registered by Klöber or our suppliers as per the Electrical appliance law.

### Materials

Composition of the materials used for the model:

lim98, P990, 3962, D062, 3534, 3218, 3103, 3301, 3817, 3711, URBAN

Reference quantity: 1 unit

### Metals

	kg	%
Steel	1,751	13,25

13,3 %

### Plastics

	kg	%
Polypropylene (PP)	4,755	35,98
Polyamide 6.6 (PA66)	3,898	29,50
PUR foam	0,480	3,63
Polyester fabric	0,442	3,34
Iglidur	0,006	0,05

72,5 %

### Further materials

	kg	%
Fibreglass	1,882	14,24

14,2 %

**Total weight (without packaging) 13,22kg**

Disclaimer: The material list given may not include all the materials used in this product (e.g. adhesives, coatings, residues etc.).

## ENVIRONMENTAL PRODUCT INFORMATION

### Material cycle

### Global warming potential within the product life cycle [GWP; kg CO<sub>2</sub>-eq.]

### Procurement and transport

It is always in Klöber's interest to purchase resources and production means from nearby partners whenever this is economically viable. Communication is easier, there are no customs duties or currency risks and shorter shipping routes are less harmful for the environment. That's why, our most important supplier country is Germany followed by other European states. The percentage of deliveries from non-European countries is less than 3%. The proximity of the suppliers results in short shipping routes.

### Production

Klöber is characterised by its impressive vertical range of manufacture. Key, environmentally relevant processes thus take place in our production facility which are subject to regular certification.

### Waste management and recycling

Klöber works exclusively with certified specialist disposal firms which it audits at regular intervals. It has worked closely with a complete disposer since 2013. We recycle paper, cardboard, plastic, glass, wood and metal at all sites. To avoid waste, the rejection rate during the production process is monitored and continually improved.

### Creator of the life cycle assessment

Sphera Solutions GmbH, Hauptstraße 111-113, 70771 Leinfelden-Echterdingen
